

JOB TITLE

Senior Software Engineer.

JOB OVERVIEW

We are looking for a talented software engineer that will join a skillful team of experienced professionals specialized in AI. The chosen candidate will apply state of the art techniques in computer vision, natural language processing, social robotics and human-computer interaction to real world challenges.

JOB LOCATION

The headquarters are located in Seville (Spain). Flexible working conditions.

RESPONSIBILITIES AND DUTIES

- Improve the existing products and help developing new ones (mainly C++ and python).
- Keep up to date on state-of-the-art AI techniques.
- Customizing products and generating customer-specific solutions.

MUST-HAVE QUALIFICATIONS

- Software engineering, telecommunications or equivalent degree. Mathematicians/statisticians etc. with software development experience are also welcomed.
- Spoken and written English at professional level.
- 5+ years of software development experience.
- Python and/or C++ expertise.

BONUS QUALIFICATIONS

- Experience in AI/Data Science.
- MSc or PhD in related fields.
- Experience with ML frameworks.
- Experience with cloud infrastructures like AWS.
